

During a heat wave  
**your health is at risk,  
what are the warning signs?**

Cramps

Unusual tiredness

Headaches

Fever > 38°C

Dizziness/Nausea

Speaking incoherently

┌ If you see someone who  
is unwell, **dial 15**. └

**WHAT YOU SHOULD KNOW**

Anyone over the age of 60 or with a handicap, is entitled to personalised support. You simply need to contact your mairie (town hall) or the CCAS (Centre Communal d'Action Sociale - Centre for Social Action).

During a heat wave  
**What should you do or avoid doing?**

**DRINK WATER  
REGULARLY**

**Moisten your skin  
with water  
and use a fan**

**Ensure you eat  
sufficiently**

**Avoid strenuous  
activities**

**Avoid drinking  
alcohol**

**Keep your home cool:  
keep the shutters  
closed during the day**

**Keep in touch  
with friends and  
family**

**WARNING!**

You are particularly at risk if **you are pregnant, have a baby or are a senior**. If **you are taking any medication**: ask the advice of your doctor or your pharmacist.
